

Editor's letter

We are welcoming summer with open arms and a revamped spirit to celebrate diversity by empowering cultural awareness. There may be more than one way to learn about various cultures, people and customs. Easiest and most commonly used way is to simply read information online, which often can be misunderstood or lead to stereotypes. To avoid this, our Dream Team™ is committed in providing everyone an opportunity to learn about cultures from the very source. Our international cultural exchange program's prime goal is to fill in cultural gaps, provide American public with first-hand experiences and activities to understand, comprehend and appreciate different cultures and to indulge in a positive dialogue. Our cultural program associates and coordinators play a vital role in achieving this goal. We thank them for their continued participation from around and almost every corner of the globe.

Beyond Management takes diversity in the United States as a blessing and had always been a supporter of making international cultural exchange more accessible to US public. We also respect differences and work towards breaking stereotypes and cultural barriers. In the coming months, under the umbrella of beyondculturalevents.com, we are bringing world famous artists to you live in your own cities and suburbs. Artists who have rocked world's biggest stages like Noble Peace Prize Ceremonies or Grammy's with their mesmerizing performances, will now be performing under the flagship of Beyond Cultural Events. We encourage you to follow our site for latest updates and dates.

In this edition of Broadcaster, we also offer you stories and pictures from recent events, celebratory words for Mother's Day, company expansion news and our

flagship and famous birthday section. If you want to share your birthday moments with fellow Beyonders or our newsletter audience, please send them to broadcaster@ibeyond.org.

Beyond Management is wishing everyone a great summer ahead. It is almost time to sum up mid-year goal achievements and plan some more exciting events and business endeavors.

Happy mother's day

Thank God for our Mothers-by Julia Hunt

If life were without water, where would we be?
If life were without mothers,
There would be no you or me.
We all need to take hold, of how precious life really is,
and not take for granted the gift of love and the ability to give.
Thank you to God for creating us all
For giving us our mothers
So we can stand proud and tall.
Humans are no accident, no mistake or error
We sometimes live our lives in fear of this,
Even to the point of terror.
But when the truth is told, and recognized by all,
God does not create rubbish. He knew what he was
doing when he created
me and you, but the best gift of all, is giving us loving,
caring
Mothers who love us unconditionally through and
through.
None of us are perfect, that includes ourselves and
family.
Hold onto how precious we are and thank God for our
mothers. Amen

Previous Events

Festival of Colors-by Negar

Thanks all our friends for joining us in this event. We had a different festival of colors. Undoubtedly the flags are the best sample of a festival of color; All colors that used in each flags have special meaning. For example; The colors of the pales (the vertical stripes) are those used in the flag of the United States of America; White signifies purity and innocence, Red, hardiness & velour, and Blue, the color of the Chief (the broad band above the stripes) signifies vigilance, perseverance & justice.

East Meets West-by Antonina

We had second East Meets West Event. We played funny games to guess what is West culture and what is East culture. We ate different native food from East and enjoyed amazing desserts with tea.

Saz and Avaz-by Negar

We are so excited about our first collaboration with Persian communities. This event included native sing and song of Iran. In this event Keyhan Kalhor played a magical music instrument Kamanche. Kamancheh is a native music instrument of Iran, it's something like violin. Kalhor is the most famous Kamancheh player in Iran. The singer was Alireza Ghorbani with a sweet

voice. He is a famous classical singer in Iran. Being in Persian company was a good experience for us. They are so friendly and hospitable with a rich culture.

News

Instagram Ranked Worst for Young People's Mental Health

A new study says that Instagram is the worst social media network for young people's mental health, according to a new report by the Royal Society for Public Health in the U.K. And Snapchat is the second worst.

"FOMO" — aka the fear of missing out — may not be listed in the American Psychiatric Association's manual of mental disorders, but users who spent more than two hours a day on social media are more likely to report poor mental health and symptoms of anxiety and depression, says the study. Seeing endless pictures of friends on fun outings can also promote a "compare and despair" attitude among users, the report said.
